RE: Our File 582-797 USSR  
PM No. 620

Dear Les:

We have received an Official Action in the above case and enclose a copy of the translation of the same.

The Action, to which reply should be filed not later than December 4, 1977 proposes the grant of patent on the basis of the specification and four claims of which a translation is attached.

If the claims meet with your approval please advise so that we may file a reply in due course.

Finally, note that this case is directed to method and there presently exists an apparatus case which is still under examination.

Very truly yours,

George J. Brandt, Jr.
